

Virtual Seminar Series for Undergraduate Physics Students

Fridays 4-5 pm EST
(1-2 pm PST)

From Nov. 13th,
2020 - Feb. 5th, 2021

Topics include:

Skating on Spin Ice: a tour
of frustrated magnetism
and fractionalization

Can ultrafast laser pulses
make water magnetic?

Healing Humanity
One Spark at a
Time: diagnosing
bacterial pathogens
with Laser Induced
Breakdown
Spectroscopy
