

IsoSiM CREATE Program

Presents a Professional Development Summer School on

Effective Written and Oral Communication in Science

by Nature Book Series Editor of

“English Communication for Scientists”

Dr. Jean-luc Doumont

Dr. Jean-luc Doumont, the Nature Series Editor and Lead Author of English Communication for Scientists, is an engineer from the Louvain School of Engineering and a Ph.D. in applied physics from Stanford University. A world-acclaimed expert on scientific communication, Jean-luc has 20 years of experience running lectures and workshops on writing scientific papers, giving oral presentations, graphing data, and related topics in English, French, Dutch, and Spanish. His audiences include graduate students, postdocs, and faculty at top-notch universities around the world (including MIT, Stanford, UC Berkeley, Caltech, and Harvard), scientists at public research centers (such as NIST, CDC, VIB, ICFO) and at private R&D centers (such as HHMI, Shell, Johnson & Johnson), attendees at international conferences (such as those of SPIE and IEEE), and many more.

Thursday, June 25	9:00 – 12:30 “Fundamentals of Writing” (closed training session) 13:30 – 17:00 “Effective Written Documents” (closed training session)
Monday, June 29	9:00 – 12:30 “Effective Oral Presentations 1” (closed training session) 13:30 – 17:00 “Effective Oral Presentations 2” (closed training session)
Tuesday, June 30	10:00 – 12:00 “Structuring Your Research Paper” (public lecture) <u>IsoSiM Partnership Day:</u> 15:00 – 16:30 IsoSiM students’ presentations 16:30 – 17:00 Coffee break 17:00 – 19:00 Discussion panel on “Career paths in Industry for young researchers”

To register please send an email to mstachura@triumf.ca (deadline: May 31st, 2015)

Please note this is a 3-day long summer school
(2-day long workshop + the IsoSiM Partnership day)
