“WHAT’S THE GIST, PHYSICIST?”

Join us for another Friday afternoon of division updates, science, community, and some food on us!

Agenda:

- Division updates w/ Petr (~10 min)
- Q+A w/ Petr (~5 min)
- Scavenger Hunt (~10 min)
- Science Talk: “Bringing Light to Dark Matter” – Wolfgang Rau

Abstract

You sure have heard about dark matter, but are we sure it's there? What are the main reasons we are convinced there is something out there that is not the stuff we usually encounter? Some of this will be discussed before moving on to methods of how we can get a handle on what this mysterious dark matter might be. Specifically, I will spend a few minutes talking about the SuperCDMS experiment I am involved in.
